

Agricultural Training Plan

Agriculture safety training courses include Agricultural Machinery Safeguarding, Seasonal Agricultural Workers Health and Safety Orientation, and Working in Confined Spaces on the Farm. Each course takes approximately 45 to 60 minutes to complete and offers a quiz at the end of the learning experience.

Training topics also include those relevant to all industries that ensure safe work environments and healthy workers such as anti-harassment training and emergency response. These materials educate, inform and inspire better workplaces for all companies.

Download our OHS training calendar as selected by ASSE certified trainers. You can use this calendar to access both online and instructor-led safety training for each month.
