Sexual harassment is any unwelcome sexual advance or conduct on the job that creates an intimidating, hostile or offensive working environment. Any conduct of a sexual nature that makes an employee uncomfortable has the potential to be sexual harassment.

An employer has a legal responsibility to maintain a workplace that is free of sexual harassment.

Sexual harassment can sometimes come in the form of threats if the person does not go along with sexual advances, or promise of job rewards if the person does. Another type of sexual harassment is the creation of an intimidating or offensive work environment. Sexual pictures and offensive language are examples.

Sexual harassment can be physical and involve unwanted touching or physical assault. It can be verbal in the form of off-color jokes or non-verbal in the form of gestures. A male harassing a female is the common scenario. But females do harass male, and same-sex harassment also occurs.
