

# Eye Protection – Seeing is Believing Infographic

## Keep an Eye ...on Your Work

**Work related eye injuries affect more than 2500 workers in BC every year.**

**CHOOSE THE RIGHT PROTECTION FOR THE JOB:**

- When working around particles, flying objects, or dust wear **SAFETY GLASSES** with side protection.
- When working with chemicals, wear **GOGGLES**.
- Wear a **FACE SHIELD** over your safety glasses or goggles when the hazard is more severe.

**Proper eye protection will decrease your chances of eye injury by 90%.**
