Inspected by: D	ate:		

PLEASE NOTE: The visual tank inspection performed was limited to the items inspected on the tank as noted on this inspection form, and does not cover any other area of the house or property, or parts of the tank system not visible. The inspection conducted and the results reported on this inspection Report represent the visible condition(s) of the tank present on the day of inspection only. This inspection should not be construed as an opinion or prediction of the condition of the tank in the future. Conditions involving the tank(s) may change in the future, and future inspections are recommended. If you notice a change in the condition of the tank, please contact your retail Oilheat company immediately.
