

Identifying, Addressing and Preventing Heat Related Illnesses

Recorded Date: April 22

Time: 12 – 1 PM (PST)

Speaker: TBA

Welcome to a comprehensive guide on “Identifying, Addressing, and Preventing Heat-Related Illnesses.” As temperatures rise, understanding the risks associated with excessive heat becomes paramount. This webinar will help equip you with essential knowledge to recognize early signs of heat-related illnesses, provide effective first aid and address immediate concerns. Moreover, we’ll delve into proactive measures and preventive strategies to ensure your well-being in hot climates.

Stay informed, stay cool, and let’s prioritize heat safety together.
