

Lyme Disease Picture This

LYME DISEASE PREVENTION

The Lyme Disease Prevention poster series is a fun way to educate the community about the signs and symptoms of Lyme disease and how to prevent it.

BE TICK WISE IN THE FALL & CHECKOUT REPELLENTS

Fall is here and ticks are very active. If you are spending more outdoors, it is important to consider how to protect yourself and your family. Wear long pants, tick checks, proper tick prevention and other ways to avoid tick exposure and bites.

INFORMATION ABOUT TICK-INSECT REPELLENTS

For more information from The Environmental Protection Agency (EPA) on products which protect you against insects and/or ticks (check out products and compare them for health protection: <https://www.epa.gov/ohrt/tick-prevention>).

PROPERTY PREVENTION: TRICKS TO STOP TICKS

Ticks are most likely to be in woods, where people walk, work, where they spend time, and where they play. Ticks are found in grass, under leaves, under ground cover (low growing vegetation), near stone walls, or near grass, shrubs, trees, around bird feeders, around pet houses. Know the methods to prevent ticks.

PA PARKS USE LIA PREVENTION POSTERS

Liverpool Borough Council, PA is taking an active role in educating and raising awareness about Lyme and tick-borne diseases. The Council will be distributing, printing, framing and displaying one of the LIA's free prevention posters below in its park grounds. The LIA urges all park managers to consider doing something like this for prevention.
