FAST FACTS: WORK INJURY LACERATIONS

MARTOR USA

Two out of every five workplace hand injuries are caused by lacerations

The National Safety Council (NSC) reported
OVER 1 MILLION HAND INJURIES
occur each year in the United States

63%

of these are
from knife
lacerations

26.74%

of machinery injuries
are lacerations

55.86%

of injuries caused
by hand tools are
lacerations

Lacerations are high up on a
company's list of recordables...
