Ten Steps All Workplaces Can Take to Reduce Risk of Exposure to Coronavirus
All workplaces can take the following infection prevention measures to protect workers:
1 Encourage workers to stay home if sick.
2 Encourage respiratory etiquette, including covering coughs and sneezes.
3 Provide a place to wash hands or alcohol based hand rubs containing at least 60% alcohol.
4 Limit worksite access to only essential workers, if possible.
5 Establish flexible worksites (e.g., telecommuting) and flexible work hours (e.g., staggered shifts), if feasible.
6 Discourage workers from using other workers' phones, desks, or other work tools and equipment.
7 Regularly clean and disinfect surfaces, equipment, and other elements of the work environment.
8 Use Environmental Protection Agency (EPA)-approved cleaning chemicals with label claims against the coronavirus.
9 Follow the manufacturer's instructions for use of all cleaning and disinfection products.
10 Encourage workers to report any safety and health concerns.
