York Manufacturing How to Reduce the Cost of Claims

A York bulletin geared to the manufacturing industry on simple things businesses in this sector can do to reduce the cost of their claims.

For manufacturers, worker injuries and product liability are two significant sources of claims. Even the best risk management practices cannot prevent all claims. At York, our job is to partner with you to reduce the cost and the impact of the claims that do occur. Our philosophy is “Pay what our clients owe, defend what they don’t.”

For any claim, quickly gathering and…
